About the Author

Olga Lash writes stories rooted in character, where ordinary choices carry extraordinary weight. Her debut fantasy series, *The Journey to the Left Side*, unfolds in a world where geography shapes destiny and fragile bonds hold the power to change everything. Her stories bring to life women who are powerful, imperfect, and unyielding — facing the world with courage, fire, and transformation.

Born in Moscow, Olga moved to London at seventeen — a leap that defined her independence and voice. Five years in the UK, followed by life in Barcelona, shaped her creative vision with depth and contrast. Her own journey, marked by challenges, mental health battles, and resilience, taught her the power of honesty and perseverance. The comma tattoo she carries embodies this philosophy: a reminder that every story — and every person — continues.

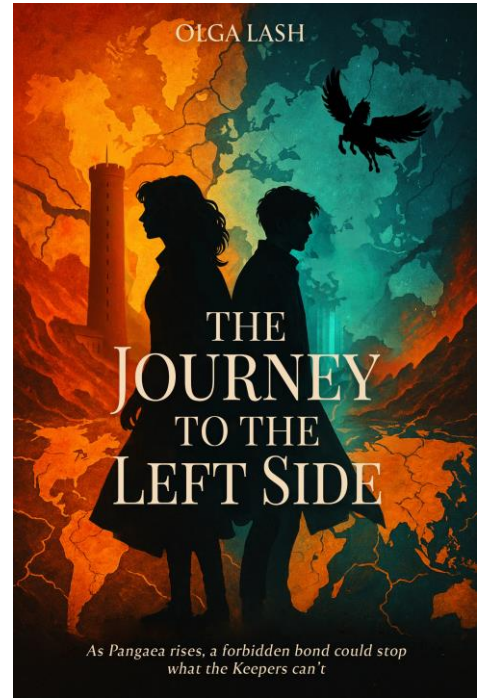

About the Book

Maya Veter was never meant to stand between worlds. Chosen as the Keeper of Eurasia, she holds the title — but none of the power. The Tower tells her to trust. To follow their rules. To be patient. But when she stumbles upon a cursed book — and a Pangaeian boy who should be her enemy — she begins to question everything.

Kai de Kerver was raised in the shadows of rebellion. Loyal to a vision older than borders, he speaks every language but keeps his own truths guarded. When he crosses paths with Maya, his mission shifts — though not his allegiance.

As the continents stir and ancient forces awaken, the two are pulled into a fragile alliance that could stop a disaster set in motion long before either of them was born. But on the Left Side, nothing is what it seems — and trust can be a dangerous thing.

The journey begins where the maps end.
